PROJECT

ID CREATION AND MANAGEMENT TOOL

SURYADATTA INFORMATION TECHNOLOGY AND MANAGEMENT COLLEGE

- github.com/Prashant8181/ID_CARD-CREATION-AND-MANAGEMENT-TOOL • February 2025 - April 2025
- Developed a full-stack web application for generating and managing student ID cards using HTML, CSS, JavaScript (Frontend), and JSON/Python (Backend). Performed CRUD operations and maintained structured records in ORACLE SQL database.
- Created stored procedures and SQL queries for student/admin data processing.
- Integrated frontend with backend using AJAX and JSON for dynamic data exchange.
- Designed admin approval system with login authentication and session management.
- Generated downloadable digital ID cards and implemented role-based access control. Prepared test scripts, sample data, andconducted manual testing to ensure reliability
